2027**

SUSTAINING PARTNERS PROGRAM

573-634-4080

3432 W. Truman Blvd., Ste. 110,
Jefferson City, MO 65109

SPONSORSHIP LEVELS

The American Council of Engineering Companies of Missouri, is planning a dynamic array of member programs for FY27. Based upon feedback from members, we have created the ACEC/MO Sustaining Partners Program (SPP). This program provides member companies the convenience of one upfront payment to enjoy multiple registration benefits & opportunities throughout the year. Additionally, sponsorship demonstrates your companies' professional commitment to ACEC/MO as a leader in the field of consulting engineering through additional recognition, signage and social media.

ACEC/MO will continue to offer sponsorships of individual meetings and programs as we have in the past. But the SPP program is a way to simplify your budgeting and planning and receive additional benefits. *Please note that the SPP does not apply to the Midwest States Conference in June.*

Companies have the option of receiving an invoice before the end of FY26 or at the beginning of FY27.
