

FOCUSED ENERGY. *For life.*

Scott Wibbenmeyer
Senior Director, Renewable Development & Acquisitions
Ameren Missouri

As Senior Director, Renewable Development & Acquisitions for Ameren Missouri, the largest electric utility in Missouri, Mr. Wibbenmeyer is responsible for leading the development of renewable generation projects to comply with the Missouri Renewable Energy Standard, reliable and affordable transition of Ameren Missouri's generation portfolio, and development of customer renewable energy solutions. With over 20 years of utility experience, Mr. Wibbenmeyer started his career as a design engineer at Ameren Missouri's Callaway Nuclear Energy Center. From there, he has held numerous leadership roles within the fossil generation, turbine engineering, fuel contracting, insurance risk management and renewable develop organizations. Scott has a B.S. in Mechanical Engineering and an MBA from the University of Missouri. Scott is also a certified Project Management Professional (PMP) and Associate in Risk Management (ARM).
