Professional Biography

Geoff Roberts has been with HR Green as a Construction Engineer since 2016. Prior to joining HR Green, he spent time in Chicago working both in the field and on design projects. His field experience includes railroad grade separation, streetscape, interchange reconstruction, bridge redecking/overlay, highway widening and resurfacing, ADA improvements, traffic signal upgrades, local road reconstruction, and interstate interchange improvements. His design experience includes interstate interchange drainage design, traffic studies, intersection design studies, and environmental assessments. Geoff received a Bachelor's and Masters' of Science Degree in Civil Engineering from the University of Illinois Urbana-Champaign. He is a licensed Professional Engineer in Missouri, Illinois, and Colorado.

Personal Biography

Geoff and his wife Meridith have two boys, Hank and Charlie, ages 3 and 1. When not at work he spends most of his time giving piggyback rides and playing with "baby diggers" and trains with his boys, and watching St. Louis Cardinals baseball and Illinois football/basketball.
