### **BIOGRAPHY**

Linda Moen is the majority owner and managing member of EFK Moen, LLC, a civil engineering design firm with two offices in the St. Louis region, and offices in southern Illinois, Chicago and Atlanta. Linda is a graduate of the Mizzou College of Engineering and started her career with the Missouri Department of Transportation in 1985. After 13 years in design and operations in the St. Louis and Jefferson City Districts, she left MoDOT and created EFK Moen with three other partners.

EFK Moen has been in business since 1998 providing engineering designs and professional land surveying primarily to state DOT's, counties and municipalities on significant roadway and bridge projects. As the managing member of the firm, she is responsible for financial management, insurance, HR/ personnel management, purchasing, office leases, contract administration, government registration and certifications, and business development, in addition to her real career passion: civil engineering.

Linda served as Board Chair and National Director for ACEC-Missouri and Board Chair for ACEC-Illinois. She is active with ACEC in Missouri, Illinois and Georgia, including State and National PACs, and joined the ACEC Business Insurance Trust Board of Trustees in July 2024. She is also active in many other industry organizations and has served on the boards of several not-for-profit organizations.
