BIOGRAPHY

Nate has more than a decade of experience in leading government relations efforts and a history of creating opportunities through building meaningful relationships with legislators and key stakeholders. At Olsson, he leads the implementation of our strategic and tactical development plans related to government affairs. His goal? Visibly align our firm in front of opportunity. He positions Olsson as a client resource and an advisor to government leaders. His comprehensive skills include managing lobbying efforts and developing grassroots advocacy strategies to build bridges between Olsson and key decision-makers. Once a pursuit or opportunity is determined, Nate helps develop and manage our strategy by identifying our key players and connecting them with the right people as we move forward. His ability to testify before and connect with legislators allows him to highlight our technical abilities, position our talent, and prepare our people to speak in a manner that resonates with policymakers and key decision-makers. He holds a bachelor's degree in business administration from Southwest Baptist University.
