Professional Biography

Jessica Keeven joined SCI Engineering, Inc. (SCI) in 2004 and is the Environmental Services Manager. SCI is a multi-discipline engineering consulting firm headquartered in St. Charles, Missouri with branch offices in O'Fallon, Illinois, Denver, Colorado, and San Antonio, Austin and Eagle Pass, Texas. She manages a team of 15 engineers, scientists and support staff. She is Certified Hazardous Materials Manager (CHMM), HAZWOPER supervisor, a licensed asbestos and lead inspector in multiple states, and a National Radon Proficiency Program (NRPP)-licensed radon measurement professional. Jessica specializes in a broad range of environmental services critical to pre-construction planning and regulatory compliance including environmental reviews for affordable housing, Phase I and Phase II Environmental Site Assessments, underground storage tank closures, and environmental remediation design and oversight.

Personal Biography

Jessica and her husband Brad reside in Wentzville, Missouri. They have a 16-year-old son, Wyatt, who plays ice hockey and roller hockey and a 15-year-old daughter, Avery, who plays volleyball. Jessica enjoys watching her kids play sports and spending time with family, traveling and being outside.
