BIOGRAPHY

Dave Diestelkamp is currently the Chief Operations Officer for ABNA Engineering Inc with HQ in St. Louis and two offices in Illinois. He has 40+ years of experience specializing in transportation projects, site development, flood protection, lock & dam design and construction, airside airport development, and mass transit projects. His infrastructure project experience are from across the U.S. and include alternative delivery methods such as D-B and CM At-Risk Projects. His illustrious career includes many years of providing Operations and Office Managerial leadership at Jacobs Solutions, a Fortune 500 engineering design company. Dave has served as Chairman for ACEC-Missouri as well as serving in numerous leadership roles during his 30 years of active participation. He is a member of the Academy of Civil Engineers at Missouri S&T and is a past President. He has been active in numerous other professional and technical organizations in our industry. His knowledge of engineering practices and corporate strategies as well as his strong relationships with Infrastructure Leaders are unsurpassed.
